

# IRS Stakeholder Headliners ...and More

Volume 13

April 3, 2002

*This e-mail is being sent to you for distribution to your organization's members. If you need further assistance, please contact your local IRS Taxpayer Education and Communication (TEC) office. The number is available in IRS Publication 3698A "Small Business/Self-Employed Taxpayer Education and Communication at a Glance", at <http://www.irs.gov/pub/irs-pdf/p3698a.pdf>.*

## **Don't' delay your client's refund**

There have been significant changes at the IRS this year. Some involve changes to where returns should be filed. The correct site to file a return can be found in the "Where to File" instructions for both Individual and Business returns. About 10% of the approximately 14 million business returns the IRS has received so far this year were mailed to IRS centers not in the "Where to File" directory. Generally, business returns should be filed at the IRS centers in Cincinnati, Ohio, or Ogden, Utah. Individual returns are also being mailed in significant numbers to the wrong IRS center. All of these misdirected returns cause possible delays in processing and the issuance of any refunds. It also results in additional processing costs for the United States Government.

The links below provide correct "Where to File" information.
